

# Certified Lean Master

Creating lean supply chains for manufacturing, distribution, retail, service, and virtual organizations

## The Certified Lean Master program:

- A multi-session program with a complete package of education and coaching on the creation of lean supply chains.
- 3 educational sessions of 3 days each with a 4 week break between sessions for participants to apply the knowledge to their lean initiative.
- Participants improve one value stream at their organization, create quantifiable improvements, and begin seeing immediate results.
- A certification exam and the opportunity for participants to earn personal recognition as a Certified Lean Master.

3 sessions of 3 days equals 9 days of instruction:

A: Crafting a lean initiative and value stream mapping

B: Creating flow and leveraging pull

C: Lean supply chains and the CLM exam

Developing leadership skills through education, application, and coaching

**Lean: the systematic elimination of waste**

# Certified Lean Master

Session A: Discussions include the 5 principles of lean, defining value, the 7 types of waste, lean simulations, kaizen blitz events, building a business case, organizing for success, value stream mapping, and other topics related to effectively launching a lean initiative. Participants leave with an initial business case and a 30-day plan of attack.

Session B: Participants return and present their current state value stream map. Discussions include kanban, the 5S system, six sigma, visual controls, point of use, high flexibility scheduling, changeover reduction, performance measurements, takt time, supply chain collaboration, and other topics related to creating flow and leveraging pull. Participants leave with a new 30-day plan of attack.

Session C: Participants return and present their progress in creating flow and leveraging pull. Discussions include total landed cost, product development, lean and green, mass customization, supply chain audits, and other topics related to creating a lean supply chain. Participants take the CLM exam and leave with an updated project plan for completing their lean transformation.

This program is ideal for a team seeking to drive significant improvement

Manufacturing  
Change Agents  
Supply Chain Management  
Engineering  
Logistics  
Purchasing  
Project Leaders  
Master Scheduling  
Marketing  
Information Technology  
Finance  
Customer Service

*"Don't miss this course. The CLM training is excellent, and the business results real and measurable. We have already realized significant improvements in our operations in just a few short months." - Jodi Lynn Walsh, Lexmark International*

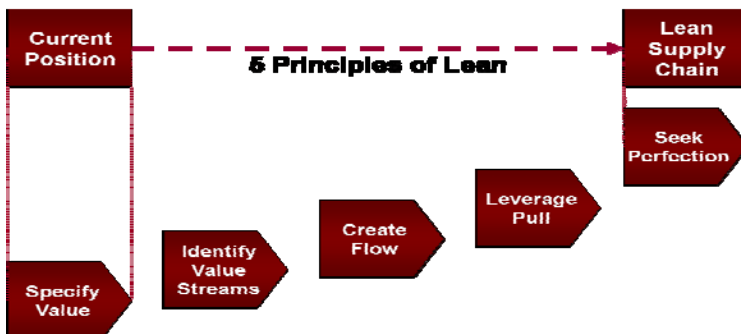

**Participants will have telephone and email support between sessions to discuss progress and alternatives for meeting the milestones in their project plan.**

Certified Lean Masters are change agents that deliver results in meeting business objectives and contribute significant improvement to an organization's bottom line. They stimulate thinking by challenging conventional wisdom and providing options for the successful application of lean concepts across the supply chain from suppliers to customers and beyond.

**\$3,750 per person\***

If you have 8 or more people, then contact us for scheduling a special event to educate your team where and when you want!
