

# Supply Management

## Best Practices for Managing Complex Supply Chains

This 1-day seminar will teach you how to:

1. Craft planning and scheduling processes that focus on constraints and priorities while enhancing your flexibility to meet customer requirements.
2. Develop a sourcing strategy and collaborate with your supply chain partners to improve customer service and reduce costs.
3. Leverage total landed cost and other techniques for crafting your supply chain to maximize service while achieving the least total cost.
4. Balance the roles of strategy, processes, and technology in developing improved supply management capabilities.

*"I was exposed to many new concepts which I intend to put into practice, starting today."*
